

Tribal Environmental Health Awareness Day

September 21, 2019

Schoolhouse Pond Beach

Rain or Shine

The Narragansett Tribe's Environmental Protection Program is dedicated to creating a pathway to environmental awareness by educating Tribal Membership and Tribal Youth about environmental issues. This year's event seeks tribal adults (18+) and youth to participate activities such as to catching fish, learning our traditional fishing methods, hear stories about traditional fishing from our Elders, learning about air quality contaminants and water quality and learn about the health impacts of environmental contaminants affecting our watershed. Other Activities include information on Ticks and Mosquitos.

Tribal Artists - There will be a special outreach event for community-based arts initiatives.

Event: Fishing Event: Adults and Youth

When: Saturday, September 21, 2019

9:00 am – 3:00 pm

- Fishing Event, Water Quality Testing, Namaus (All Things Fish Project) information and activity, Water Quality sampling activity, and much more.

HOPE TO SEE YOU THERE!

Pre-Registration is encouraged.
