First item on the agenda is voting on the TEC Nominees.

First Councilman Cassius Spears, Jr. laid out the rules for voting for the following nominees: Beth Thomas, Honey Collins, Pearl Brown and Dawn Spears. The top three nominees will be on the TEC.

Voting was opened up and a time allotted for each vote.

Votes were received and recorded follows:

For Beth Thomas:	22 Votes
For Honey Collins	28 Votes
For Pearl Brown	35 Votes
For Dawn Spears	36 Votes

The top three vote getters and the three new TEC members are as follows: Honey Collins, Pearl Brown and Dawn Spears.

The Chief Sachem stated the TEC Committee should start meeting right away to handle the Election process and give notice to the Tribal Body.

The Chief Sachem gave an explanation of the American Rescue Plan and the funding for it.

The Cares Act was more designed for COVID-19 related issues for assistance and with gift cards; of the \$6 million issued, only about \$200,000 is left.

The American Rescue Plan, after many discussions at the Federal level, with the Tribe's attorneys and the Tribal Government, came up with the allotted distribution. Tribal Government argued to get the money non-taxed and to reach the amount that was distributed; approximately \$6 million spent to date, and approximately \$11 million left. There may be another distribution but that will depend on the next set of rules and regulations and discussions with the attorneys. The Navajo Nation received billions but only distributed \$600 to their individual Tribal members.

Chief Sachem apologized for not getting all checks out by Christmas.

Several questions regarding how funds are distributed. The Tribal Government will work with questions and how to respond with the possibility that questions and responses can be posted on the website.

Councilwoman Heather Mars-Martins reminded everyone to keep their addresses and emails up to date with the Tribe and to also register with a Zoom account to have access to the meetings.

The Chief Sachem gave an update regarding the Construction Company and work to get it off the ground; need to get funding so to create work and get Tribal people hired; need to get our Tribal people, trained, licensed and bonded. Review data on website and we will plan to vote on it at the next meeting.

We need to look at other economic opportunities to use what funding we have now and get more done and make it a priority. Looking at minority AA certification and need to get additional funding to expand in other areas i.e., CT and MA.
