

Dear Tribal Member:

Please see the following resource about the Medicare Savings Program that NIHC would like to bring to your attention:

Medicare Savings Programs

Get help from your state paying your Medicare Part A (Hospital Insurance) and Part B (Medical Insurance) premiums through a Medicare Savings Program. If you qualify, Medicare Savings Programs might also pay your Part A and Part B deductibles, coinsurance, and copayments.

You'll apply for Medicare Savings Programs through your state. When you apply, your state determines which program(s) you qualify for. Even if you don't think you qualify, you should still apply.

What's a premium, deductible, coinsurance, or copayment?

How to qualify for the 4 Medicare Savings Programs

In many cases, to qualify for a Medicare Savings Program, you must have income and resources below a certain limit, as described below. These limits go up each year.

You may still qualify for these programs even if your income or resources are higher than the limits listed. Some states don't count certain types or specific amounts of income or resources when deciding who qualifies.

Contact Your State: see below

Rhode Island
