Chief Sachem's Office
December 21, 2022

Dear Fellow Tribal Members,

As the Chief Sachem of the Narragansett Indian Tribe, I am honored to provide an update on tribal activities from August 2, 2022 till December 21, 2022. I want to thank the tribal council, tribal directors and the tribal staff for providing services to our tribal membership throughout a very tough year. At this time our tribal membership stands at over 3450 people enrolled. A tremendous effort was out forth to service our tribal members to the best of our ability. Over 15 million dollars of services has been provided over the past two years. The tribal membership has received more services than at any time during our history since Federal Recognition. We have continually provided information regarding nutrition, health care, health care supplies and whatever the Federal Regulations allow for distribution to the tribal membership. The Covid-19 pandemic is still ongoing and all tribal members and their families are encouraged to take as many precautions as possible for continued well-being/health. Although we now are using "zoom" computer equipment for our tribal assembly meeting we are still trying to invest in ways to improve the computer capabilities to efficiently hold monthly meetings. We were able to swear-in over 400 people that were "technical corrections" or people that were put on hold until their paperwork was reviewed and approved. This happened during the months of June, July, and August. We were also able to have a tribal assembly meeting on the tribal lands in September. At this time due to the incoming inclement weather the tribal monthly meeting will be held utilizing the "zoom" process until we get warm enough weather to meet on the tribal lands outside. I want to recognize the work done by the staff and screening committee to review and confirm all the required paper work and records that allowed those 400 people to be sworn in. I thank all that made that possible. We also allowed the tribal membership to have access to Deep and Schoolhouse Pond. Due to "Controversial Behavior" we had to once again shut down and close the gates for four weeks and later reopen in September. We were able to hold our 347th annual August Meeting/Powwow. A near record number of people were in attendance and basically all went well. I thank all that participated and it was good to be doing what we have done since time immemorial. At least 40 people have passed away since 2019. A time of ceremony was held at our 347th annual August Meeting/Powwow to honor those that had passed on into the spirit world and our traditions were upheld. On a sad note, some tribal members were stricken with Covid-19 and became ill. As most of you are aware the Narragansett Indian Tribe was awarded funds for "economic stimulus" derived from the American Rescue Plan Act. At three different times we were able to provide "financial assistance" to the entire tribal membership nationwide. Needless to say this was also a very difficult task and I have to thank and give credit to all that were involved that made it happen as it had never been done in our tribal history.

P.O. Box 1354 • 4533 South County Trail • Charlestown • Rhode Island 02813

This institution is an equal opportunity Employer/Provider

Below you will find a list of activities that have continued since my last update Please note that they are listed in no particular order.

Work has continued on our tribal roads.

Continued work and plans for the Crandall Farm.
